Hi Anna,

Didn't Melissa tell you your responses to the survey were online? Your responses are at <https://parentsagainstssfl.com/vote>.

I did work for Rockwell and Boeing at SSFL for 25 years and make no secret of that. I am proud of the work we did. I also consulted for Boeing after my retirement but am no longer consulting for them.

None of my online material that I have written since my retirement has been solicited by, or paid for by, Boeing. As I always state, the views and opinions are mine alone and do not necessarily reflect the views of my former employer. Nevertheless, facts are facts, and I stand by everything I have written.

Phil

Dear Phil

Thank you for your comments. It seems like a bit of a hit piece on Melissa who put this together. Indeed we haven't even seen it yet.

We note you work for Boeing or did and or are still consulting for them presumably. Hence the bias .

My campaign disagrees with some of your alternative viewpoints and your interpretations or perceptions of facts.
Facts which there are evidences to show the opposite of what you call incorrect.

Perhaps you don't know that not all information is public.

I would urge any candidate who wins office to know there is at least one qualified individual here whose coalition partner has worked directly in these sites at a Principal Project Manager Level who is able to serve as Consultant to tackle Boeing and their Consultants on their related attempts to not clean up the SSFL site properly.

It is a niche skill.

I am Running for Congress and will be rolling up my sleeves on this site. I myself have worked closely with one of these laboratories.

Again Phil thank you for your comments.

Dear Candidates,

You were recently asked by Parents Against Santa Susana Field Laboratory (PASSFL) to complete a survey about your opinions on SSFL.

Please find attached and online a synopsis of the survey, the candidates' responses, and an alternative viewpoint.
