Mr. Willoughby,

During our telephone conversation with Larry Kellum on May 23rd, you committed to take a second look at the falsified waste manifests that were the subject of my February 9th complaint.

Your May 16th decision to close the investigation

(https://www.philrutherford.com/SSFL/doe_building_demolition/FOIA/UDWMRC_Reply_2023-05-16.pdf) was apparently based on your determination that EnergySolutions had not violated its license or WAC by accepting greater than Class-A LLRW. This of course was not the issue.

I have not heard from your department in the last two months and am curious if your second look answered/resolved any of the specific allegations in my complaint.
